OFFICE OF LEGISLATIVE COUNSEL

Thursday - 29 August 1963

1. (Unclassified - GLC) After attempting to reach Marion Csarnecki, House Foreign Affairs Committee staff yesterday without success, I talked with Helen Hashagen, his secretary, regarding Csarnecki's request on behalf of Representative Dante B. Fascell for information regarding [redacted] and the publication Bohemia Libre. Miss Hashagen said Csarnecki was on leave but he called in yesterday. She advised him that I had attempted to reach him yesterday morning. He indicated the matter could wait until his return on Tuesday.

2. (Unclassified - GLC) George Murphy, Joint Committee on Atomic Energy staff, called to alert us to a situation in which he thought we might be interested. He said an individual by the name of [redacted] was planning to visit the United States on 17 November. He described [redacted] as the top man in his field in his country. He is being accompanied by twelve other scientists and will visit a number of laboratories and installations while in this country. (Murphy mentioned the Brookhaven Institute as an example.) Murphy said that while we may know of this visit he thought he should make the call in the event the Agency wished to monitor this visit. I gathered that Murphy has been in touch with the AEC and the FBI regarding this. I thanked him for his interest and said I would pass this on to appropriate people here.

3. (Unclassified - GLC) [redacted] called to say that their field office had attempted to reach the steamship captain who had offered his assistance through the office of Senator Thomas J. Dodd. The Captain has changed jobs and left no forwarding address with his old employer. We have been in touch with Dodd's office and will attempt to obtain a new business address since the Captain does not wish to be contacted at home.
